

Sharkey & Associates

Certified Professional Manufacturers' Rep

Since 1978, Blake Sharkey, CPMR, has capitalized on his background, enthusiastic spirit and professional skills to bring high level representation involving all aspects of the Foodservice industry to a very select group of Principals.

The Sharkey team is able to provide a high level of focused energy to a multi-line balanced portfolio of manufacturers who benefit from Blake's deep involvement in the market.

"I met Blake Sharkey at a MAFSI conference in Arizona in 2004. I later retained his firm to represent our new Turbochef speed oven. And what a tremendous job he did! Blake provided his customers with the very best in speed oven offerings, training, and support. As COO and President of Turbochef Technologies Inc. from 2004 until 2011, I can share that his support and enthusiasm for his manufacturer were equal to his excellent work in his region. I am very happy to have Blake and his team working with the Pratica Express Line, and we look forward to

many years working together to bring the best in speed oven support and training... again."

Paul Lehr, *President*
Practica Products Inc.

Your Branch Office

As the regional branch office for these outstanding manufacturers, Sharkey & Associates provides a professional culinary center at its Pittsburgh headquarters where dealers, end users and consultants can experience cooking with selected products.

In addition, Blake Sharkey personally works with many end users to train their personnel to effectively use the equipment to maximize their value and obtain planned return-on-investment.
